47th Northampton (Duston) Scouts

Home safety badge

Name:

This term we will give you a chance to attempt an activity badge at home. Working towards this badge will be optional and as such, no pressure will be placed on any family who elects not to take part.

Cubs have until 6th November 2024 to complete the badge.

Cubs will need to work with their family to complete all of the following tasks in order to gain the Home Safety Badge. Full details can be found on the scout website: -

<https://www.scouts.org.uk/cubs/activity-badges/home-safety/>

Good Luck!

Find out how to protect your home from crime.

Before going away you should:

Put items somewhere safe.

Tell a you are going away

and when you will be back.

Put tools and ladders away in the or garage.

Cancel the and deliveries.

Close the

Lock the front and door the gate

Hints:

Food - Shed - Newspaper - Windows - Garden - Valuable - Trusted Neighbour - Back - Close

In the Kitchen

Thinking about what you've seen in the pictures, can you identify any risks in your home? What might you do to prevent them?

Find out what to do about a burst water pipe, gas leak or power failure in your home.

If we found a burst pipe at home, three things we would do are:

- Turn off the stop cock (this is a tap which shuts off your water).
- Call the national gas emergency number.
- Switch the electrical power off at the fuse box.
- Call an electrician.
- Open all windows and doors.
- Turn off the gas supply at the meter.
- Do not operate electrical items or use naked flames.
- Check if other houses on your street have lost electric power too.
- Call a plumber.
- Obtain a torch.

If we found the electricity was not working, three things we would do are:

- Turn off the stop cock (this is a tap which shuts off your water).
- Call the national gas emergency number.
- Switch the electrical power off at the fuse box.
- Call an electrician.
- Open all windows and doors.
- Turn off the gas supply at the meter.
- Do not operate electrical items or use naked flames.
- Check if other houses in your street have lost electric power too.
- Call a plumber.
- Obtain a torch.

If we found a gas leak at home, four things we would do are:-

- Turn off the stop cock (this is a tap which shuts off your water).
- Call the national gas emergency number.
- switch the electrical power off at the fuse box.
